This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently Amended) A method of treating a subject suffering from ~~or at risk from~~ a cancer selected from the group consisting of breast cancer, and liver cancer ~~and melanoma~~, the method comprising:

(i) preparing a pharmaceutical composition by a method comprising

(a) comminuting rhizomes of *Fagopyrum dibotrys*;

(b) extracting the comminuted material with a solvent comprising a C₁-C₄ alcohol to produce a liquid extract; and

(c) removing solvent from the liquid extract to produce a dried or concentrated material; and optionally

(d) fractionating the dried or concentrated material; and

(ii) administering the pharmaceutical composition to the subject.

2. (Original) A method according to claim 1 wherein the solvent comprises ethanol.

3. (Previously Presented) A method according to claim 1 wherein an excipient is added to the liquid extract and step (c) comprises drying under reduced pressure to produce a dry material.
